MESSAGE FROM THE PRESIDENT

To our valued customers:

We at D&H/United Pump Supply have been committed to excellence in providing products and services to our retail, commercial, and industrial customers for over 72 years throughout the southwest. By listening to our customers over the years, we have diversified into such fields as convenience store food service equipment, fleet fueling and Diesel Exhaust Fluid (DEF) equipment, dispenser security, site and interior lighting and energy saving green products and systems. In order to provide our customers with a complete worry free experience we design, install and service everything we sell.

D&H/United Pump Supply is committed to ensuring our customers the equipment and/or services they purchased will be guaranteed by our highly trained and certified technicians. Our technicians are reinforced with parts inventories at eight locations throughout the southwest and a modern fleet of vehicles and support equipment in order to respond immediately to the needs of our customers.

Our success and high level of excellence can be measured by our many satisfied customers. We are dedicated and committed to earn and retain your business and appreciate the many opportunities given us by our loyal and new customers and look forward to serving you for the next 72 years.

Sincerely,
John Farrell, President

Leading the industry in cost-effective solutions

THE COMPANY

MISSION STATEMENT

D&H/United Pump Supply is a customer driven company. We will always seek cost effective solutions and keep the customer's best interest in mind.

PERFORMANCE POLICY

At D&H/United Pump Supply, we guarantee to perform at the highest level of proficiency and quality for every customer and on every job. We will only offer the top quality products that meet or exceed the customer's expectations and maintain all manufactures records and requirements as part of our service commitment.

SUSTAINABILITY STATEMENT

We at D&H/United Pump Supply strongly believe in sustainable economic growth that emphasizes compliance with Environmental and Safety laws and reduces environmental impacts by recycling waste material in the safest way possible to create less of an impact on our earth. The three R's, Reuse, Reduce and Recycle, is a slogan that is practiced every day. D&H/United Pump Supply not only implements environmentally friendly protocols but also promotes environmental awareness in the communities where we work.

Leading the industry in cost-effective solutions

THE COMPANY

EQUAL OPPORTUNITY EMPLOYMENT

D&H/United Pump Supply is an Equal Opportunity Employer. We promote diversity and equality in our work force.

INTRODUCTION

D&H/United Pump Supply has served Petroleum Marketers since 1939. In addition to sales, installation, service and removal of Retail Petroleum Equipment, we provide sales and installation of Commercial/Fleet Fueling Equipment, Aviation Fueling Equipment, Automotive Repair and Lubrication Equipment, Emergency Generator Fuel Supply Equipment, In-Store Food Service Equipment, Interior and Exterior Lighting, Energy Management Equipment, Design/Build Services as well as, Environmental Corrective Action Programs. In addition, we carry a full line of Fluid Management Products which includes pumps, dispensers, meters, piping, valves, tanks and points of sale.

In 1999, D&H/United Pump Supply expanded to meet our clients' needs for environmental compliance and began offering Environmental Services. D&H/United Pump Supply provides services that include: environmental site assessments, installation and operation of remediation systems, high-vacuum mobile dual phase extraction services, emergency spill response, vacuum truck services and cleaning-inspection-testing of storage tank systems. We have performed investigations and remediation on a variety of sites such as industrial sites, construction sites, fueling facilities, manufacturing plants, refineries, railroad sites, warehouses and government facilities.

Our company has approximately 200 employees with branch offices in Texas – Amarillo, Dallas/Ft. Worth, El Paso, Lubbock, Midland/Odessa, San Antonio and Albuquerque, New Mexico. We also have Remote Technicians stationed in Texarkana as well as Gallup and Farmington, New Mexico.

Leading the industry in cost-effective solutions

THE COMPANY

INSURANCE COVERAGE

D&H/United Pump Supply is insured by various carriers for certain loss exposures. The primary general liability policy covers traditional general liability exposures as well as certain contractor's pollution liability, products/completed operations, and professional liability exposures. The policy is subject to combined single limits of \$10,000,000. The companies' employee work-related injury exposures are covered by primary state-required workers' compensation insurance and employers liability excess indemnity policies through Travelers and Great American. These policies provide limits as required by statute. The companies' auto liability exposure is covered by a primary business auto liability policy through Hartford with combined single limits of \$1,000,000. All primary policies, excepting pollution and professional liability exposures, are scheduled under lead umbrella and excess liability policies written through various excess carriers affording \$25,000,000 of annual aggregate protection for the scheduled exposures. Bonding based upon request.

Leading the industry in cost-effective solutions

THE COMPANY

PERSONNEL

Our staff has extensive experience working with state and federal regulatory agencies. We are licensed installers in Texas (CRP000091), New Mexico (010673), Arizona (108354), and Oklahoma. We are a registered Corrective Action Specialist in New Mexico (RCAS00764), Arizona (14448-0) and have Certified Scientists in New Mexico and professional geologists in Texas. We offer courses approved by the Texas Commission on Environmental Quality (TCEQ) on Stage II Vapor Recovery and continuing education for licensed On-Site Supervisors and Installers. We have a total of 101 licensed technicians throughout our branches.

D&H/United Pump Supply is an authorized Gilbarco/Veeder-Root distributor and we have certified technicians for installation and service of all Gilbarco/Veeder-Root products.

Our technicians are also certified in the installation and service of Passport, Ruby, Sapphire and Topaz point of sale systems.

Our technicians have been trained by manufacturers such as Rotary Lift, Champion, Lincoln, and Tuthill on the proper installation of automotive lifts, compressors, lube systems, and pumps. Our personnel have installed entire lube systems and oil systems, lifts and compressed air systems for various large new car dealerships across the southwest.

Each of our branch locations has extensive experience in the installation and removal of Underground Storage Tank (UST) and Aboveground Storage Tank (AST) Systems to include: design, construction, remodels, electrical, concrete and demolition projects. Our installers attend manufacturers' installation courses, maintain their certification with annual training and re-testing.

CERTIFICATION, LICENSES, SERVICE CAPABILITIES

OUR SERVICES

Our services include:

- Installation and service of fuel dispensers and P.O.S. Systems
- Sales, Installation and Service of Petroleum Marketing Equipment
- Sales, installation and Service of Automotive Service Equipment
- Sales and Installation of Industrial/Commercial Lubrication Equipment
- Sales and Installation Service of Food Service and Beverage Equipment
- UST & AST Installations to Include Convenience Stores, Fleet Fueling Facilities, Emergency Generator Systems, Marinas and Aviation Fuel Facilities
- UST & AST Repairs and Service
- UST & AST Removals
- 24 hour Hazardous Materials Spill Response and Cleanup
- Corrective Action for Leaks at UST Sites, Licensed in Texas, Arizona and New Mexico
- Certified UST, Line, and Stage II Vapor Recovery Testing and Training
- Continuous Tank and Line Leak Monitoring and Testing
- Preventative Maintenance Programs
- Annual Systems Compliance Testing
- 40 hour Hazwoper, Confined Space and Hazardous Management Training
- Environmental Site Assessments

CERTIFICATION/ LICENSES

D&H/United Pump Supply holds the following licensing and certifications:

- UST Installation & Removal for TX, NM, AZ and OK
- AST Installation & Removal for TX, NM and OK
- Dispenser Meter Calibration for TX, NM, AZ and OK
- Bulk/High-Volume Meter Calibration for TX, NM and OK
- Corrective Action Specialist for Texas
- Certified Scientist for New Mexico
- Installation and repair certifications for OPW, Ameron, Smith, XERXES, Containment Solutions, APT, UPP, BlueLine, Bravo Systems, Flex-Ing, Petroleum Containment, Gilbarco, Verifone, Veeder-Root, INCON, Red Jacket, F. E. Petro, Gasboy, Petro-Vend, Fuel Master and many more.
- Registered Geoscience Firm in the State of Texas
- Registered Remediation Firm in the State of Arizona
- SP-001 Aboveground Storage Tank (AST) Inspections

CERTIFICATION, LICENSES, SERVICE CAPABILITIES

PETROLEUM EQUIPMENT & SERVICES

D&H/United Pump Supply offers a full line of petroleum handling and marketing equipment. We are distributors and authorized service representatives for the best and most reliable equipment in the industry. Our seven fully stocked warehouse locations allow us to cover the largest service area in the Southwest. A rigorous technician training program and a fleet of fully stocked, computer-equipped, service vehicles are some reasons our service is second to none. We service retail outlets, commercial fueling depots, bulk and pipeline terminals, aviation fueling sites and government facilities.

Some of the equipment we offer includes point-of-sale consoles, dispensers, tanks, piping, fuel gauging and monitoring systems, spill containment-overfill prevention devices, card readers-fuel control systems, and fuel management-back office support systems. D&H/United Pump Supply offers our clients the peace of mind that we will support and service everything we sell.

The following are some of the manufactures that we represent:

Leading the industry in cost-effective solutions

CERTIFICATION, LICENSES, SERVICE CAPABILITIES

AUTOMOTIVE EQUIPMENT & SERVICES

D&H/United Pump Supply is the authorized distributor and service agent for many of the automotive industry's leading service equipment products. Our vast experience and expertise in this industry has enabled us to offer some of the worlds most recognized brands. Our capabilities include: designing, installing and servicing fluid dispensing systems by manufactures such as Graco, Lincoln and Balcrank.

We have also established our strengths and capabilities in the industry with exceptional products such as Rotary and Challenger Lifts, Curtis and Champion Compressors, Shure Shop Equipment, Borroughs Corporation Workbench and Storage Shelves. We represent a full line of equipment that is utilized in automotive dealerships, retail lube centers and commercial equipment lube systems. Our offerings and capabilities are second to none; and our locations are strategically located in El Paso, Midland, Lubbock, Amarillo, San Antonio, Dallas/Ft. Worth and Albuquerque to better serve the industry.

Our customers know we, not only sell great products, but back them with great factory-trained personnel and a performance guarantee. As we say in our Mission Statement *"we are a customer driven company"*.

C-STORE EQUIPMENT & SERVICES

D&H/United Pump Supply has added C-Store beverage and food service equipment to the many fuel and environmental products and services we sell allowing our customers to deal with one source for all of their retail needs. By providing product lines such as: Cornelius ice and beverage equipment, Tidel cash management systems, Kysor walk-in coolers, Anthony doors and Southern Store Fixtures refrigerated cases, D&H/United Pump Supply can provide a complete "turn-key" solution for our customers.

Additionally, D&H/United Pump Supply can provide complete shelving and cabinet systems such as Royston, Madix and Lozier. To complete the package we can provide "Green Energy" solutions by providing inside and outside LED lighting products by: LSI and Beta which lower operating costs while extending bulb life. Finally, we can provide the Gilbarco Wisdom energy management system to monitor all lighting, air conditioning and refrigeration equipment to maximize the performance of your C-Store equipment, thus reducing operating costs and minimizing down time.

Our customers know we, not only sell great products but back them with great factory-trained personnel and a performance guarantee. As we say in our Mission Statement *"we are a customer driven company"*.

ENVIRONMENTAL SERVICES

D&H/United Pump Supply offers a full line of Environmental Remediation Services. Ranging from large to small spills, we have the proven technical personnel and equipment to assist you when you need it. Our personnel have experience working with flammable liquids, corrosives, oxidizers, toxics and poisons in: liquid, gas, semi-solids and solid forms. We also have the resources to respond to your emergency with PPE ranging from Level D to Level A. Our Emergency Response Trailers are fully equipped to handle any job.

Our professionals have experience in roadside incidents, tanker rollovers, pipeline breaks and leaking drums, to name a few. We will respond 24 hours a day 7 days a week, year round for your environmental emergencies.

We have confined space entry teams for underground and aboveground storage tank cleaning and servicing. Our technicians go through rigorous training, as well as medical surveillance to ensure projects are completed without incident. Our entry teams are equipped with extraction tri-pods, harnesses and lifelines. Our teams perform entries with supplied air or self-contained breathing apparatus. Our first priority is safety.

We also specialize in Mobile High Vacuum Multi-Phase Extraction events utilizing liquid ring pumps to achieve vacuums of up to 27 in Hg. We also offer a variety of equipment such as: thermal and catalytic oxidizers, rotary blowers and internal combustion engines.

D&H/United Pump Supply can service your needs with equipment and trained personnel for your environmental construction project. We have successfully completed projects such as: excavation of thousands of cubic yards of soil, fence and access-road construction and decommissioning of remediation systems, to name a few.

In addition, our technicians can support your environmental project by performing groundwater sampling, PSH gauging-bailing, monitoring well sampling, soil-waste sampling, drill-cuttings disposal and equipment repairs. We have extensive experience in wastewater and storm water, sampling and monitoring. Our staff is highly trained and provided with HAZWOPER training.

We have successfully completed many remediation projects related to petroleum releases, heavy metals contamination, Nitrate-Chloride assessments and dense non-aqueous phase liquids sampling. We have experience in the design and installation of dual phase extraction systems, pump and treat systems, vapor extraction systems and low maintenance PSH skimmers.

EQUIPMENT

D&H/United Pump Supply maintains a fleet of GPS equipped service vehicles available for immediate dispatch; loaded with repair parts, onboard laptops, air cards, parts-scanners and able to print service orders and invoices on-site. Our staff is equipped with the necessary personnel protection equipment to avoid injury and project delays. Our Construction Vehicles are equipped to respond to most installations, removals and emergency repair situations. We maintain dump trucks, backhoes, skid-steer loaders, forklifts, scissor lifts, fuel filtration trailers, wet & dry vacuum trucks, environmental remediation equipment, mobile dual phase equipment, air compressors, generators, low-volume prover cans, high-volume prover cans (100-500 Gallons), tank/line/leak detector testing equipment and trailers, to respond to most industry needs. We have a variety of instruments and equipment such as Flame Ionization Detectors (FID's), Photoionization Detectors (PID's), digital manometers, CGI, flow sensors, low-flow pumps, automated samplers, groundwater multi-meters and emergency response trailers, on hand for remediation projects and emergency response spills. Our fully-equipped and certified Emergency Hazardous Spill Response Teams are available on-call 24 hours a day, 7 days a week.
